Pons' Judge Wright and John Furloug; Quiney Stable's Exerct; Thomas Fortune Ryan's Rockfish; J. O. Talbott's Jawbone and Republican; Harry Payne Whitney's Discovery.

TENNESSEE BILL MEETS WITH SETBACK.

Nashville, Tenn., March 27.—The House judiciary committee has recommended for rejection the bill to promote the breeding of thoroughbreds and racing in Tennessee.

Harrigan . John Louis

Kopek Ocean Queen ... Follie Levy Buckthorn Dennis Stafford

promote the breeding of thorougabreds and racing in Tennessee.

The bill was freely discussed by a number of stockmen of the state at a hearing given by the committee. They explained and strongly advocated the bill for passage. The committee took the view that the bill would tend to increase betting, and opposed it largely on that ground.

Several years ago the legislature passed a bill prohibiting bookmaking and betting on horse races, which served to put a stop to racing in the state. The present bill prohibits bookmaking, but would legalize the pari-mutuel system of betting. The demphis members of the committee opposed the bill and this as much as anything else served to cause the bill to be recommended for rejection.

RECORD OF MILES IN 1:39 OR BETTER

At Louisville, May 27, 1877, Ten Broeck electrified racing enthusiasts by running a mile in the then unprecedented time of 1:39\frac{3}{4}\$. This record stood until Racine reduced it to 1:39\frac{3}{4}\$ at Washington Park in 1890. This time was equaled at Morris Park by La Tosca in 1891 and at the same track Chorister ran a nide in 1:39\frac{3}{4}\$ in 1893. It was not until 1894 that a mile was run in better than 1:39. Libertine scoring in 1:38\frac{3}{4}\$ at Harlem, October 24 of that year, it thus requiring seventeen years to reduce the Ten Broeck record to the full extent of a second. Previous y in that same year, 1894, a mile had for the first time in this country been run in 1:39. This was when George Forbes' speedy old selling plater, Arab, covered a mile in that time at Morris Park, June 11, and Ducat equaled this time at Sheepshead Bay, August 28. The Libertine record held good until 1906, when Voter ran a mile in 1:38 at Brighton Beach and Orimar did the same at Washington Park, In 1901 Brigadier became the record holder by running a mile at Sheepshead Bay in 1:37\frac{4}{5}\$, and held that distinction until Allan-a-Dale cut the time to 1:37\frac{5}{5}\$ at Washington Park, July 1, 1903. Allan-a-Dale's supermacy was short-lived, lasting until August 14 of the same year, when Dick Welles established a faster record of 1:37\frac{5}{2}\$ at Harlem. This time was tied by Kiamesha at Belmont Park, Geober 9, 1905. It was not again equaled until August 15, 1908, when Fern L., carrying the light burden of 80 pounds, ran in the same time at Seatrle.

From the time horses began to run over the new Santa Anita track it was obvious that it was such a ghenomenally fast course that in time it must inevitably hold about all of the records. It acquired the mile record December 22, 1908, when Centre Shot, with 165 pounds in the saddle, set the new and present record of 1:37\frac{5}{5}\$. In its short existence 1:38 was surpassed affect times miles are frequent. Since 1800 it has been the fashion to make tracks as conduciv

or better over recognized tracks:						bı

COLIN POORLY PATRONIZED

UNBEATEN SON OF COMMANDO GIVEN SCANT CHANCE IN STUD IN ENGLAND.

First of His Get Will Race As Two-Year-Olds This Season and One of Them Has Been Heavily Engaged in Important Stakes.

Notwithstanding his unimpeachable pedigree and flustrious record as a race horse. Colin has been been been corly patronized in the stud in England. His first trop of two-year-olds are to run this year and, so ar as can be made out from stake nominations, he has but four two-year-olds in England and they are:

J. Buchanan's br. c, Gentle Shepherd, by Colin—Yesterling. J. Buchanan's Br. C. Genter Colinette, by Colin—Revender Blue.

J. A. de Rothschild's b. f. Colewort, by Colin—Revender Blue.

J. A. de Rothschild's b. f. Colewort, by Colin—Revender Blue.

Lavender Blue.

J. A. de Rothschild's b. f. Colewort, by Colin—Mistle.

Duke of Portland's br. c. Poco, by Colin—Pola, Resides these, there may be some on the continent, it being understood that one or more German breeders sent mares to Colin. It was probably unlucky for him that one of King George's mares breat to him proved to be barren, but, as she had also been barren to other stallions, it should not have counted against him.

Except in the case of Gentle Shepherd, nothing has cropped up concerning the merits of Colin's four two-year-olds in England. Of Gentle Shepherd several good reports have been published, one writer saying that he is expected to prove himself a "genuine smasher" when racing comes on. This colt was bred by Lord Clonmell and at the Don-caster September sales last year was bought by Mr. Buchanan for 1,850 guineas, or \$9,620. He had then been nominated to some stakes, but has been so heavily further engaged since that it is evident he must have aroused great expectations in the minds of his owner and trainer. His formidable list of nominations is:

NOTES OF THE TURF.

Fabric, which won a Tattersall's Cup in Australia for R. Wootton before being taken to England, is now doing stud duty in South Africa.

Not a single horse of the twenty-four starters fell in the big Paris steeplechase last Sunday. On the same day Puggins won a \$1,000 hurdle race for Charles Kohler, whose horses are trained by S. C. Hildreth,

CHICAGO, ILLINOIS, MARCH 28, 1913.

THE AMERICAN RACING MANUAL OF 1913.

The American Racing Manual for 1913 is unquestionably a better book than any of its predecessors. having been enriched by the addition of new features, while at the same time all the old features are retained. This publication, which is annually in great demand among those interested in the turf, is an excellent and low-priced book of 460 pages, holding information obtainable in no other publication. It is simply a mine of records. A new feature of this book is a tabulated compilation of the great races of England, France and Australia, which covers the winners and other details from their institution. This is a feature that is more comprehensive than ever before attempted by any turf publication in the world. Other features are:

Record for 1912 of Every Horse That Raced in North America During the Year.

Exposition of Methed for Calculating Pari-Mutuel Prices, with Examples.

English Racing Records to Date.

Three Hundicap Systems with Examples.

Records of All Distances of the Tracks of the United States, Canada and Mexico.

American Yearing Sales of 1912.

American Racing Records at All Distances.

Australian Racing Records.

The Great Money Winners of the American and English Turf.

Tabulation of Winning Two-Year-Olds of 1912 Arranged Under Their Respective Sires.

Officials and Location of Racing Organizations of the United States, Canada and Mexico.

List of Horses That Have Sold for Great Prices. The Leading Minning Two-Year-Olds Since 1870. Renarkable Feats of Jockeyship.

Leading American Sires Since 1870.

Twenty Leading Sires of 1912.

Table of Comparative Speed of the Tracks at All Distances.

The Scales of Weights of the Jockey Club, Kentucky State Racing Commission. Western Jockey The American Racing Manual for 1913 is unque

Horses Which Died in 1912.
Horses Which Died in 1912.
The book costs only 50 cents in paper binding and 75 cents in leather covers.
Single copies by mail must be sent as registered mail, with an extra charge of 10 cents for registration. Not responsible for books mailed without registration.

tion. Not responsible for books mailed without registration.
With this eminently handy book in his pocket any admirer of racing can readily answer almost any query that may come up concerning facts of racing in the past. Its equal has never been printed and, cansidering the topics it covers, it is an extremely low-priced book. Orders for it should be sent to baily Racing Form Publishing Company, 441 Flymouth Court, Chicago, Ill.

FEW REGULARS LEFT AT CHARLESTON.

Majority of Visiting Turfmen Have Already Taken Their Departure for Other Points.

Charleston, S. C., March 25, (Delayed in Transmission.)—Few of the regular followers of racing who came here for the Palmetto Park meeting remain, the majority having already taken their departure for the north and west. Those who attempted to pick winners today were anything but successful, Maurice Reed being the only favorite to score. The list of the beaten choices was made up of Bessle Lattimer, Silicic, Cherryola, Howdy Howdy and Fairy Godmother. The defeats of Bessle Lattimer, Cherryola and Howdy Howdy were especially profitable to the layers, all having been supported with great confidence. The first-named of this trio lost all chance when Edna Leska cut across at the start of the juvenile race, and caused a bad mix-up. Edna Leska obtained such an advantage that she was able to win. Jockey Obert, who had the mount, was held to blame for the trouble and was disciplined by suspension for the rest of the meeting, in addition to being fined \$50.

Will Woodard and his connections attempted a betting coup with Howdy Howdy in the fifth race and it would have succeeded but for the injudicious handling of the horse by jockey Koerner. Veneta Strome and Clem Beachey led the son of Ossary to the finish by a narrow margin. He was gaining rapidly at the end, and would have won had the distance been a trifle greater.

Benedictina, whose best performances had hitherto been accomplished over soft tracks, scored an easy victory in the closing dash. He followed Fairy Godmother until the last quarter, then moved up. It took about all Fairy Godmother had to outstay Eddie Grancy for second place.

C. Reed and H. Warner were the advance guard to send their strings from Palmetto Park to Marlboro.

Frank Bruen, who has served as auditor at Palmetto Park, will leave next Tuesday for Chelmant

to send their strings from Palmetto Park to Mariboro.

Frank Bruen, who has served as auditor at Palmetto Park, will leave next Tuesday for Cincinnat to resume his duties as assistant to General Manager John Hachmelster of the Latonia and Douglas Park tracks.

The railroad people in charge of transporting the horses from here estimate the consignment for the Kentucky tracks will comprise about eighteen cardoads. The same number will be sent to Jamestown and Marlboro will receive about eight carloads.

L. H. Adair's string will be shipped to Louisville next Tuesday.

Frank E. Brown has decided to race on the eastern courses during the time intervening before the opening at Lexington and will ship from here to Jamestown and later to Havre de Grace.

PREPARATIONS PROCEEDING AT MARLBORO.

Meeting at Half Mile Course in Maryland Is to Open Next Week as Per Schedule.

Marlboro, Md., March 27.—With the opening of the Marlboro meeting only a few days away, the work of fitting the half mile course for the runners is being pushed forward rapidly. Superintendent Hanna has directed most of his energy to the erection of new stables, and within two days this important work will be about completed. Notwithstanding the increase in the stabling facilities, it is certain that many of the borsemen who have made applications for stalis will have to house their charges at the Benning course in Washington. This is not exactly a hardship, for they will have the advantage of training over a first class mile course and will be able to use the horse special train that will run over to Marlboro every forenoon.

Benning has long been a favorite training ground, and this winter it has been inhabited by a particularly busy colony. William Garth, who will race one of the most extensive strings in training this year, is fitting his horses there, and he has annonneed that he will send some to both Norfolk and Marlboro.

The stable is of such proportions that this division.

that he will send some to both Norfolk and Marlboro,

The stable is of such proportions that this division
is possible and he still will have a big representation at each course. There are seventeen crosscountry performers in the stable, and the way they
have been schooling at Benning makes it certain
that they will have to be considered when they are
sent to the post.

The steeplechase division is made up of the
Welkin, Ticket of Leave. Gun Cotton, Shannon
River, Garth, Idle Michael, Julia Armour, Red
Squirrel, Cloud Chief, St. Abe, Irene Gunmail,
Thistlemas, Ragusa, Exton, Linnare, Falling Water
and Rhomb.

According to information just received, the first

and Rhomb.

According to information just received, the first shipment from Charleston for Mariboro will be on Friday. Among those who will ship from Palmetro Park will be J. O. Talbott, J. W. Hedrick, J. H. McCarren, C. Reed and William Cahill.

Another special is to be run from the South Carollua track at the conclusion of the race meeting there next Saturday.

GRAY HORSES IN FOREIGN RACING.

GRAY HORSES IN FOREIGN RACING.

If we have not seen many good grays in the last ten years on the English turf, there was, at any rate, a really good one, i. e., Tagalle, Grays are far more numerous on the continent, especially in France and Italy and without a single exception they are Herods, mostly descendants from Le Saney. In England now and then a gray Hermit is seen, but not one of them has ever raised any pretensions to be anything more than of very moderate class. The two gray Herod strains are those of the Wild Dayrell descendant. Pepper and Salt, continued by Gray Leg and Senseless, who, with the few descendants from See Saw are all that is left in England of this once powerful Highflyer line of Herod and those of Le Saney. Great sires of all times lave produced gray colts with gray mares, but not one of them has established a new family of grays. If Tagalie were mine I would not hesitate to have ber covered by Senseless, if only for the sake of gettlag a filly who cannot possibly fail to become a grand broodmare, considering the annalgamation of two of the stoutest Herod lines in existence.

In the "Deutscher Sport" reference is made to the obvious superfority of the gray descendants from Le Sancy as if appears from the last year's racing records of the Italian turf. Of 431 horses run twenty which were grays. Eight were offsprings from the last year's racing records of the Italian turf. Of 431 horses run twenty which were grays. Bight were offsprings from the last, were by Le Saney. One is by Miroir de Portugal, has sane to be Saney. The most successful gray was La Santerelle, which won 21,250 lire. She is by St. Damien, and her dam, La Sirene, by Le Basilie, by Le Saney. Altogether these twenty-nine grays won 142,045 lire, if from this sum the stakes are deducted which the French horses, Kildare and Clairon H. Carried over the frontier, there remains an average of 5,261 for the twenty-seven grays fonled in Italy. In order to show the enormous vitality of these grays it may be mentioned that the now

EXPECTS TO RACE AT PORTER.

EXPECTS TO RACE AT PORTER.

Gary, Ind., March 27.—In making denial of a published statement sent out from Hanmond that it was the intention of the management of the Mineral Springs Jockey Club to re-open the Porter track on June 14 next and conduct racing in deflance of any action that the authorities might take, A. F. Knotts, president of the club, is quoted as follows:

"I was not within 100 miles of Hammond at the time and have made no such statement at any time. Other alleged news iteas of a like nature have been sent out from Hammond. Valparaiso and Laporte at various times. All of these have been a direct slap at the race track and undoubtedly were inspired by unfriendly interests.

"As a matter of fact, we are figuring on a race meeting in Porter county, and in view of these plans, any statement from any of those interested such as I have been credited with making would be ridiculous on its face. It is hoped to conduct racing under the Seller law and without any autagonism on the part of either the state or county officials.

"A considerable amount of money has been invested in the racing plant and we have reason to believe that racing properly conducted will not be interfered with. Nothing has been settled upon as yet, but first as soon as we have some assurancthat we can conduct a meeting full plans will be announced,"

THE EFFICIENCY OF THOROUGHBRED BLOOD.

E. L. Churchill, writing to the Thoroughbred Record from Eaton, O., cites numerous instances in which the value of thoroughbred blood in the development of the trotter has been demonstrated. His letter is herewith reproduced:

"A study of the Year Books and trotting registers and a careful comparison of the tabulated pedigrees of the great trotters of the past and present time will show that thoroughbred crosses have improved the speed ability, the gameness and endurance of the American trotter. The three most essential qualities for a race winner at any gait are speed ability, gameness or inclination to try to the ability to maintain a high rate of speed over a long distance.

"The thoroughbred Lexington, son of Boston, got the dam of Jay Eye See, the first trotter to take a record of 2:10.

"Boston, the sire of Lexington, got Sally Russell, the second dam of Maud S. (2:08%1), the first trotter to lower the record of Maud S. (2:08%1), the first trotter to lower the record of Mand S. also produced Nutwood (2:18%4), the most successful broodmare sire that ever lived. The latest edition of the Year Book credits Nutwood with 174 standard performers; 153 of his sons have sired 1.249 in the list, and 173 of his daughters have produced 371 standard trotters and pacers.

"Asteroid, a thoroughbred son of Lexington, got

and pacers.

"Asteroid, a thoroughbred son of Lexington, got Hi, the dam of Almonarch (2:24%), sire of the trotter Topsy (2:99½). Homora, a daughter of Almonarch, produced Fantasy, that lowered the world's three-year-old trotting record to 2:98% at Nashville, Tenn. October 17, 1893, same standing untouched for fourteen long years, it being broken by General Watts at Lexington, Ky., October 18, 1907. Time, 2:00%, The three-year-old record was later lowered to 2:04% by Colorado E. Fantasy trotted to a record

of 2:06 as a four-year-old.

"Waxy, a thoroughbred daughter of Lexington, produced the dam of Sunol (2:08½) and General Wellington (2:30). Julia D. C., a daughter of General Wellington (2:30). Julia D. C., a daughter of General Wellington, mated with Moko, produced the world's champion two-year-old trotter. Native Belle (2:07½). Native Belle made the record at Lexington, Ky. October 6, 1900, and also trotted to a three-year-old record of 2:06½ the following year.

"Maggie, a daughter of Legatee, thoroughbred son of Lexington, produced The Banshee, dam of Mrs. Nelly, the dam of R. T. C. (2:06%), the largest money-winning light harness performer of 1911.

"The pedigree of Baden (2:05½), the largest money-winning trotter of 1912, shows three crosses of the great Boston sire, sire of the second dam of Maud S. (2:08%), a horoughbred son of Lexington, got May, the May, the dam of the fast but erratic trotter Ryland T. (2:07%), whose record was made in 1894. At that time only eight trotters were credited with records of 2:07%, or better.

"Chestnut Belle, credited in the Year Book of 1911 with twelve standard performers, eleven of which are trotters, is out of a mare by Gilroy, a thoroughbred son of Lexington, Chestnut Belle is the granddam of the world's champion two-year-old trotter Native Belle (2:07%).

"Venture, a thoroughbred son of Williamson's Belmont, sired the dam of the double champion trotter Directum, 4 (2:05½). Directum Spier, 4 (2:11½), a son of Directum, sired Joan, world's champion four-year-old trotter, record 2:04%. She made a five-year-old record of 2:04½.

"Jack Hawkins, a thoroughbred son of Boston, sired the second dam of the double-record performer Direct, trotting record 2:18½, pacing record 2:05½, Direct sired fifteen in the 2:10 list, four of which are trotters. Direct also sired the trotting stallion Barron Direct, sire of Braden Direct, the little pacer that lowered the world's champion record for four-year-old pacers to 2:02% in the first heat of the \$8.000 Tennessee Stakes at Lexington,

SPECIAL NOTICE.

Complete severance of telegraphic communication between Chicago and the east prevents the publica-tion of entries for today's racing at Charleston in this issue. The chart of Tuesday's racing at Palmetto Park is available and is herewith published. Charts of Wednesday's and Thursday's racing will be published as soon as conditions will permit.

CHARLESTON FORM CHART.

CHARLESTON, S. C., TUESDAY, MARCH 25, 1913.—Palmetto Park. Fifty-first day. Charleston Fair and Racing Association. Winter Meeting of 55 days. (6 books on.) Weather clear. Presiding Steward, W. P. Burch. Presiding Judge, W. F. Schulte. Starter, James Milton. Racing Secretary, F. J. Pons.

Racing starts at 2:30 p. m. (Chicago time 1:30 p. m.). W indicates whip, S spurs, B blinkers. Figures in parentheses following the distance of each race indicate index number, track record, age of horse and weight carried. *Indicates apprentice allowance.

7597 FIRST RACE—5 1-2 Furlongs. (1823—1:0645—4—109.) Purse \$300. 3-year-olds and upward. Seiling. Net value to winner \$225; second, \$50; third, \$25.

7598 SECOND RACE—1-2 Mile. (1741—47%—2—103.) Purse \$300. 2-year-olds. Maidens. Selling. Net value to winner \$225; second, \$50; third, \$25.

Winner—Ch. f, by Doctor Botts—Oviedo (trained by J. McCormack).

Went to post at 3:14. At post 8 minutes. Start good and slow. Won handily; second and third driving. EDNA LESKA was away forwardly and, running in her best form, moved into a long lead at once and held the others safe through the stretch. SONNY BOY got clear at once, but had to be hard ridden and just lasted long enough to save second place. CHAS, CANNELL moved up gamely in the stretch and was going fastest at the end. DICK'S PET went fairly well. BESSIE LATIMER was caught in a jam at the start and tried to run out on the first turn.

7599 THIRD RACE—3-4 Mile. (1869—1:12%—4—113.) Purse \$300. 4-year-olds and upward. Selling. Net value to winner \$225; second, \$50; third. \$25.

Time, 2445, 4755, 1:142%, Track fast.

Winner—Ch. m. by Chilton—Minnehala HI. (trained by J. G. Wagnon).

Went to post at 3:44. At post 3 minutes. Start good and slow. Won ensity: second and third driving. CPHLTON SQUAW, running kindly, went into a long lead at once and easily won all the way. SILICIC can fairly well, but tired and just lasted for second place. REY was going fast at the end and would have been second in a few strides more. COMMONER'S TOUCH closed a big gap. NEW RIVER was caught in a fam soon after the start. RUISSEAU tired.

Overweights—Chilton Squaw, 3 pounds; Rey, 14; Sam Parber, 2.

7600 FOURTH RACE-1 Mile and 70 Yards. (1816-1:45-4-106.) Purse \$300. 3-year-olds and upward. Selling. Net value to winner \$225; second, \$50; third, \$25.

SOME PRESENT DAY BREEDING THEORIES.

The subject of the breeding of thoroughbreds is to many people a most fascinating study. Hitherto no amount of research has enabled breeders of race horses to find a royal road to success, and although inbreeding has in the cases of cattle and sheep been attended with most satisfactory results, the same success has not followed the attempts of horse breeders. Inbreeding has at times resulted in the production of excellent race horses, but similar results have followed the mating of animals in whose medigrees there were no common ancestors, at all

same success has not followed the attempts of notes breeders. Inbreeding has at times resulted in the production of excellent race horses, but similar results have followed the mating of animals in whose pedigrees there were no common ancestors, at all events in the next five or six generations. Similarly we occasionally get good stallions by close inbreeding, and also by the use of an outcross, but when we find that of two stallions by the same horse and out of the same mars one is a brilliant stud success and the other the reverse, it is borne in on one that even if nature has certain "set laws" which govern the production of race horses, we are still as far from their discovery as is the case with regard to the human race. It is true that certain broad principles in the breeding of theroughbreds have been laid down as the result of experience, but although the probabilities are that following them out may end successfully there is no approach to certainty, and the proportion of resultant disappointments has always been so large that it is not surprising that the view that horse breeding is a lottery should have been in the past widely accepted.

Whether by means of Mendelism we shall ever be hible to reduce the breeding of thoroughbreds to a more or less exact science may be doubted, for the reason that the qualities required in race horses—or, with the Waferloo Cup imminent, let me add greyhounds—differ in marked degree from those of plants, or even of cattle or sheep. Anything which tends to add to our knowledge of the subject, however, is to be welcomed. I am sure, for example, that the Bruce Lowe theory has been in many ways as for instance was the case with Raseal, the best house, of his year in Austria-Hungany a couple of seasons ago. He was the result of continuous blending of successive generations of mares belonging to an obsure outside family with sires of the best run-ing and sire families. This gradual process may, of course, at the outset have been rule of thumb or even ings of some of the earli

three great lines are given, and one can see almost at a glance all the stallions of the slightest note, from Eclipse, Herod, and Matchem down to the present day, together with the various made descendants of every prominent sire. One is thus enabled to see exactly how each line of sires stands and whether it is still flourishing, improving, or showing signs of decay. The aim of the author and compiler, Mr. W. H. E. Wanklyn (author of "The Australasian Racedorse"). Is to make clear to his readers rather the failures than the successes, and in his introductory remarks he expresses his belief that the fundamental cause of the failure of any-sire line, however promising at the outset, is invariably attributable to a particular form of inspreeding. He goes on to explain that there is no instance of the male line surviving where its founder and his dam's sire are descended within three guerantines. He goes on the explain that there is no instance of the male line surviving where its founder and his dam's sire are descended within three guerantines from the same horse. He gives as an example Peterarch, which was a great-grandson of Touchstone (via Lord Clifden and Newminster), and whose dam was by Orlando, son of Fonethstone. The author particularly wishes it made clear that this inbreeding to the male line of a horse is the cause of each of the hundreds of sires tabulated he give the name and indicates the line of descent of the dam's sire. To make it the plainer that the only clearly introduced to the market of Pilying Duchees, as well as of Vedetic. It was Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, not her sire, Flying Duchees, as well as of Vedetic. It was Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, or her sire, Flying Duchees, dam, however, not her sire, Flying Duchees, dam, however, how her sired Oxford. Stockwell carante

The American Racing Manual, for 1913

An Excellent and Low-Priced Book of 460 Pages

It holds information for people interested in racing contained in no other publication. It is simply a mine of records

NE OF THE NEW FEATURES OF THIS PUBLICATION IS A TABULATED COMPILATION SHOWING THE winners, values, times and other particulars of the great races of the world, from their institution, including the Epsom Derby, Epsom Oaks, St. Leger, Two Thousand Guineas, One Thousand Guineas, Grand Prix de Paris, French Derby, French Oaks, Melbourne Cup and other important events of the turf in foreign lands. No other publication in the world carries all this information. : : : : :

AMONG OTHER FEATURES IT HAS

Method for Calculating Pari-Mutuel Prices (WITH EXAMPLES).

America for 1912.

Complete List of Juvenile Winners of 1912, Arranged Under Their Sires. Names and Addresses of Secretaries of Racing Associations.

and Canada; also American Yearling Sales in England.

English Racing Records to Date. Three Handicap Systems, with Examples. Twenty Leading Sires of 1912.

Australian Racing Records. Records at All Distances of the Tracks the United States, Canada and

Mexico. Leading Winning Two-Year-Olds Since 1870. Yearling Sales of 1912 in the United States List of Horses That Have Sold for Great Prices.

Remarkable Feats of Jockeyship. Leading American Sires Since 1870. Table of the Mile Speed of All Tracks. English Betting Rules.

Racing Records of Thoroughbreds in North American Racing Records at All Distances. Great Money Winners of the American and A Table of the Comparative Speed of North Bookmaking Percentage Table.
Winners of All Stakes of 1912. English Turf.

Horses Disqualified in 1912.
Dead Heats in 1912.
Horses Which Died in 1912
Horses Which Died in 1912

Horses Bid Up in 1912. First, Second and Third Horses, Jockeys. Weights, Values and Times of American Stakes.

American Tracks at All Distances. Scale of Weights of the Jockey Club, Kentucky State Racing Commission, Jockey Club Juarez, Western Jockey Club, Pacific Jockey Club, Canadian Racing Associations, Southern Jockey Club, American Turf Association, Mexican Jockey Club and of England.

Record of Miles Run in 1:39 or Better, etc., etc.

With this eminently handy book in his pocket any admirer of racing can readily answer almost any query that may come up concerning facts of racing in the past. Its equal has never been printed and, considering the topics it covers, it is an extremely low-priced book of 460 pages

LEATHER BOUND...... 75 Cents PAPER BOUND...... 50 Cents Single copies must be sent as registered mail, with an extra charge of ten cents for registration. Not responsible for books sent as regular mail.

Daily Racing Form Publishing Co.

...Chicago :: Illinois

IF YOU USE A FORM BOOK

Monthly Racing Form's New Index

showing at a glance ALL the starts of every horse in training, with designations covering FIRSTS, SECONDS and THIRDS, and Track Conditions on the occasion of Each and Every Start,

will appeal to you as offering decided advantages over the system of indexing previously employed in any similar publicationprice remains UNCHANGED, \$1.00. Order the MARCH BOOK and judge for yourself the merits of this INDEX. MONTHLY RACING FORM is the best of ALL American chart books and has supplanted all others for the use of racing officials. It is accurate, perfectly printed, covers all racing in the United States, Canada and Mexico, and the INDEX is ABSOLUTELY CORRECT.
